## NOLAN CASE GOES OVER TO TUESDAY.

### Sensational Testimony Is Given by School Children.

Dr. Byron's Character Attacked by a Witness From Forestville.

The Nolan case, on trial all week before the Board of Education in Santa Rosa, has been a sensational one.

Testimony was given by a number of school girls in regard to Nolan's attention to other school girls after school hours and during recesses. This testimony was very damaging to the accused. The deposition made by Mr. Mueller, a jeweler of Eureka, Humboldt County, and the testimony of Dr. A. E. Byron, who corroborated Mueller, was of a sensational character and put defendant in a very bad light. This testimony we consider unfit for publication.

On Thursday the Board listened to Nolan's side of the case. He introduced several school girls as witnesses who denied that he had harassed them. His star witness, however, was a girl from Forestville, the former home of Dr. Byron, who testified that the doctor stepped out of his office one evening and attempted to caress her. She also told of her dress being torn in her struggles to get away from him, and how she slapped his face several times. On cross examination, however, she admitted she had not told her father of this and that he still continued to visit her home as the family physician. This occurred two years ago and nothing had ever been said or done about it.

Nolan also introduced a number of witnesses who testified to his good character, but in this examination it developed that he had stripped and engaged in several slugging matches before athletic clubs in this place and Schellville and that he was a fancier of race horses.

This closed the testimony for the defense, and then the case went over for further hearing until next Tuesday.

The prosecution has subpoenaed a large number of new witnesses from here who will be put on the witness-stand Tuesday to combat the evidence of the defense. In the meantime we withhold expressing an opinion in the case as the INDEX-TRIBUNE has no desire to forestall a verdict in this remarkable and sensational case.

Mr. Campbell, who has lived on the ranch for many years, intends to remain in Sonoma and will with that object in view buy a lot inside the town limits and erect a residence on the same.

### Feeble Minded Lad From California Home the Victim.

A sad case of drowning took place in Sonoma Creek, near El-dridge, last Saturday, in which a boy inmate of the California Home was the victim.

The lad, whose name was McCrory, entered the creek for the purpose of bathing, and when a search was made for him by the attendants of the institution his body was discovered lying at the bottom of a deep hole.

An inquest was held by Justice of the Peace Gibson of Glen Ellen, and a verdict of accidental drowning was rendered by a jury impaneled by him.

## WOMAN BEATEN BY SAN FRANCISCO POLICEMAN.

### Assault Both Wanton and Cruel—Brute Gets Off Easy.

Mrs. Rayburn, the wife of H. E. Rayburn, a San Francisco father, who with her little boy is spending her vacation at the Lawrence Villa in this place, was assaulted and brutally beaten last Sunday. Her assailant was Policeman Parquet, a member of the San Francisco police force, who, with his wife and mother-in-law, are sojourning at one of the summer resorts in the valley.

It appears that Mrs. Rayburn and her little boy were invited by the Parquets to join them in a carriage ride around the valley on the day in question and upon reaching a point between this place and Agua Caliente, Parquet, who was driving, suddenly became incensed at his lady guest and without warning struck her a terrific blow square in the face. This blow was followed by many others, and when he had satiated his brutish instincts the little woman's face was a fearful sight to behold—the entire left side being black and blue, while her arms and breast were terribly bruised. The assault took place in the presence of the other ladies in the party and Mrs. Rayburn's little boy.

A warrant was worn out for the arrest of the brute and placed in the hands of Deputy Sheriff Joe Ryan, who located his man in Tiburon on Wednesday last and haled him before Judge Small of this place. Parquet refused to plead guilty and stood trial and his honor, after hearing the evidence, fined Mrs. Rayburn's assailant \$20.

The fine was paid and the defendant discharged from custody.

## SONOMA VALLEY HIGH SCHOOL.

### Trustees Meet and Elect President and Secretary and Appoint Teachers.

The Trustees of the Sonoma Valley Union High School met last Saturday for the purpose of finishing up the year's business and electing new teachers. Robt. Poppe was elected President of the Board and Robt. P. Hill Secretary.

Prof. Montgomery was re-elected principal of the school at a salary of \$140 per month.

Prof. Lewis was re-elected vice-principal, his compensation to be \$115 per month.

The selection of the two other teachers was deferred until the next meeting of the Board.

It was decided to introduce a commercial course of study into the school, and in order to carry out this idea was the reason of postponing the election of the other teachers as it was thought arrangements could be made to introduce the commercial course with the same number of teachers as were employed for the term just closed and be able to handle all the other branches at the same time.

The matter of repairing the old High School building is now in the hands of the Executive Committee of the Board. An architect will be engaged to examine the building thoroughly and make a careful estimate of repairing and putting the same in safe condition. It is said this can be done for between \$3000 and \$4000. If this be so the bond proposition will no doubt be presented to the voters of the Union High School district at an early date.

## HOW IT CAME BY ITS DATE.

That Was Counterfeit as Well as the Quarter.

The gaunt, sad looking man ate two bountiful portions of "beef and" in the Park row beanery and with a check calling for 20 cents ventured toward the cashier's desk and banged down a battered silver quarter.

The proprietor picked up the suspicious looking quarter and examined it critically. There was a deep dent near a place in the rim and another near the circumference directly opposite, and this looked as if it might have been played.

"It grieves me to part with that quarter," said the aged, gaunt man. "I saved my life once, at the siege of Vicksburg I carried it in my vest pocket. The dent you see there was made by a bullet which otherwise would have gone through me. It saved my life then as it does now, but it is hard to part with the old friend."

The proprietor was evidently interested. "In what year was the siege of Vicksburg?" he asked.

"Sixty-three," was the prompt answer.

"This quarter is dated 1877, and it is a counterfeit."

The sad looking man looked displeased. "Of course it is. How else do you suppose I'd have an 1877 quarter in sixty-three if it wasn't a counterfeit?" he explained.

And the proprietor was so surprised that he handed out 5 cents in change, while the sad man made his escape. —New York Tribune.

## A Tart Retort.

During the presidential campaign of William Henry Harrison Alexander H. Stephens and Julius Alford met in a political debate in the south. Mr. Alford was a lawyer of a small city in middle Georgia and an aspirant for congress. He was a man of fine physique and good oratorical powers, but haughty and self-conceited. Mr. Stephens, his political opponent, was an intellectual giant, but exceedingly frail physically.

After Mr. Alford had "spread himself" on behalf of his chosen candidate, thinking to belittle Mr. Stephens, who was to follow with a speech, he concluded by saying: "And here's little Alex Stephens, wearing a coat that's big enough for old General Jackson, with the collar six inches above his head and the tails dragging on the ground. If you 'tallow' him and lay back his ears, I'll swallow him."

To which Mr. Stephens piped out in quick retort, "If you d.d, you would have more brains in your stomach than you've got in your head."

## Booth's Carefulness.

A Boston jeweler who had occasion from time to time to manufacture jewelry for Edwin Booth, the tragedian, to be worn in different characters, said he was extremely conscientious in having them made not only of the best material, but as near as possible historically correct. In having a costly crown of gold and precious stones made for the character of Richard III, he sent to London to get the correct design. So in the jewels for the character of Richelieu he took great pains to consult the best authorities. It did not satisfy him to be told that the real could not be distinguished from the imitation on the stage; hence he bought the costliest laces and materials for his costumes.

## Luminous Paper.

Luminous paper is very useful, and it can be easily rendered waterproof. It could be used for the numbers of houses, for covering matchboxes, for surrounding keyholes and in many other ways to guide people in the dark. You can make it for yourself.

Merely take three parts of gelatin, three parts of potassium bichromate and thirty-seven parts of calcium sulphide. Mix these thoroughly and add one part with one and a half parts of water. Apply with a brush to the paper.

What a Bad Digestion Does. All life looks black to a miserable man with a stomach in which his food lies like lead. Woo to his companions if they expect good fellowship from him! Woo to his wife unless she has the womanly intuition that will make her humor him as though he were a cross baby! Man delights him not, nor woman either, nor is he best pleased with himself, though he jealously demands homage from others.

## Good Bet.

"Hello, Sam! What's de trouble 'ween yo' an' yo' mule?" "I jes' won a quarter f'm him an' a bet." "Yoah jes' a patchel fool coon. How yo' ebber gwine ter git yo' quarter f'm a mule?" "Mars' Brown gibs me 50 cents er month fer to buy dis mule's feed, an' I's gwine ter take 't out ah his feed, dat's how." —Judge.

## How a Bird Flies.

It is a matter of considerable difficulty to determine at what distance from home a bird can begin to direct his course by landmarks. Trained pigeons can do so for hundreds of miles, and shore birds and those which breed in cliffs near the sea have no difficulty whatever in reaching their homes after once striking the coast line. These birds are conspicuously conservative in the matter of nesting sites, breeding by myriads in a few colonies, to which they return at stated intervals.

## Spanish Rice.

Spanish rice is very good with roast mutton. Put two tablespoonfuls of drippings into a saucepan and allow them to bubble. Add a half cupful of well washed rice and toss until browned. A sliced tomato, a minced onion and a bit of garlic are also browned in the drippings. Cover with hot water, season with salt and pepper and cook thoroughly, adding more water if necessary. Do not touch the rice until it is done.

## YOUR LIVER

Is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for constipation, dyspepsia and all liver complaints. Mrs. F. L. Worth, Texas, writes: "I have used Herbine in my family for years. Words can't express what I think about it. Everybody in my household are happy and well, and we owe it to Herbine. Sold at Simmons' Drug Store."

Greater New York consists of forty-five islands. It is not to be called the Island City. Read the names of some of the larger: Manhattan Island, Long Island, Staten Island, Hart's Island, City Island, Riker's Island, North Brother Island, South Island, Blackwell's Island, Randall's Island, Ward's Island, Berrian's Island, Governors Island, Barren Island and Coney Island. Many small ones in Jamaica Bay have large names. One Island Island, Marble Hill, near Kingsbridge, has been made by the government channel out through the Harlem river improvements.

## THE SMILE

That went out, appears on baby's face after a bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S. S. Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since. Sold at Simmons' Drug Store."

**MODEST CLAIMS OFTEN CARRY THE MOST CONVICTION.**

When Mexico, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statement. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by L. S. Simmons.

**Point.** "Oh, dear, how the hours do drag! I wish I knew how to hurry them on!" "Why don't you apply the spur of the moment?"

**CURED A COMRADE OF CHOLERA MORBUS AND SAVED HIS LIFE.**

"While running for the Grand Army Encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland, of Elgin, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and he recovered his life. I have been engaged for ten years to immigration work and conducted many parties to the south and west. I always carry this remedy and have used it successfully on many occasions. No person traveling or at home should be without this remedy." For sale by L. S. Simmons.

## BOWEL COMPLAINT IN CHILDREN.

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best remedy for this bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy as it promptly controls any unnatural looseness of the bowels, whether it be a child or an adult. For sale by L. S. Simmons.

## The Color of Flames.

You have often noticed the many tinted bars and bands that rise in the shape of "forked tongues of flames" from wood burning in the grate. It is ten to one, however, that you never have thought to figure on the cause of the variegated lines presented by flames. To bring the matter quickly to the point, we will say that the many colors are the result of combustion among the different elements of the wood. The light blue is from the hydrogen and the white from the carbon; the violet is from the manganese, the red from the magnesia and the yellow from the soda, which are constituent parts of the wood.

If your stomach troubles you do not conclude that there is no cure, for a great many have been permanently cured by Chamberlain's Stomach and Liver Tablets. Get a free sample at Simmons' Drug Store and give them a trial. They also cure constipation and biliousness.

## Stay With It.

The first day mother sent me to school I went home at recess, thinking school was out. As I have grown older I find that a whole lot of people did the same thing, and the sad part of the affair is that too many of us never went back. In life be careful that you don't go home at recess. If you start to learn a trade or profession, stay by it and master it. Don't chase away at recess. If you have a business, attend to it. Don't go home at recess. This going home at recess has sent many a business man into bankruptcy. It has caused mothers' tears to flow and mother hearts to ache. It has made crusty old scholars and sour old maids. It has filled worlds with ignorance and made barren deserts of fertile plains. Going home at recess means that you have fallen asleep at the switch and your train has plunged into the ditch. Always stay until school is out.—Osborne County (Kan.) Farmer.

**Stock in a Big Mail Order House Six per Cent Earnings Guaranteed And Enables You to Buy Anything for Home, Yourself or Family, at Same Price Your Local Dealer Pays Price of Stock Will soon Be Advanced Act Quickly**

Look out for that "rainy day!" It comes sooner or later for so many—we can't tell to-day who may want on the morrow.

Prepare now while you are able for any misfortune that may overtake you. Don't run any risks.

Here is something that will help you provide for the rainy day—an investment that carries with it unusual benefits and provides value from the minute you buy the stock.

Smith's Cash Store is well and favorably known all over the West. Its reputation is of the best and in volume of business it is making tremendous strides forward every year. Some five years ago the stock was selling for \$8.00 a share. To-day the price is \$10.00 a share. These figures demonstrate what a thriving institution is this highest Mail Order House on the Pacific Coast.

Each share of stock is guaranteed to earn 6 per cent a year. But the greatest benefit is derived by the stockholder from the discounts given to the holders of five or more shares of stock. You can buy anything to eat, use or wear at the same price the goods would cost your local dealers. We call them "Owner's Prices."

Suppose you buy goods that altogether cost \$30 at our wholesale rate. If you are a stockholder you get a discount amounting to \$2.50, and your bill is only \$27.50. The saving you will make in one year in addition to the earnings will in all probability more than cover the investment.

Year after year you will be effecting big savings. But should hard times knock at your door—and you must not be too sure that something of that sort will not happen—think what it will mean to you to be able to buy everything at cost prices. It might be the very thing that would help you to survive the period of distress.

We are increasing the amount of our capital stock. We are telling you about the stock because we think you ought to invest for your own sake. You couldn't buy stock in any other concern that would pay you so well.

It will not be long before the price of the stock is advanced. You know that means there are not many days remaining in which you can take advantage of this great offer.

For your convenience we are printing a coupon which you ought to fill out—it does not obligate you in any way. Send it at once.
